

Cuban Revenue Collections.

WASHINGTON, April 16.—The division of customs and insular affairs of the war department has given out the statement that the internal revenue collections of the island of Cuba for the month of February 1900 were \$63,474. The total revenue internal receipts for the first eight months of the present fiscal year were \$553,374.

Chattahoochee Valley Extension.

PHENIX CITY, Ala., April 16.—People here are very much interested in the extension of the Chattahoochee Valley railroad from River View, Ala., southward. It is now said that the road may have a terminus in Phenix City, as originally planned, instead of crossing the Chattahoochee to the Georgia side.

Three Fatally Burned.

YONKSTOWN, O., April 16.—By an explosion of molten metal at the furnace of the Ohio plant of the National Steel company, James Johnston, Wallace Alexander and Prockett Stevens were probably fatally burned. The explosion was caused by the hot metal flowing into a water trough.

Humphrey Acquitted.

ATLANTA, Ala., April 16.—William Humphrey, a young planter of this county, was acquitted of the charge of murder in the circuit court here. Last August he had trouble with a negro tenant and as a result the negro was shot and died the following day.

Open For Business.

COLUMBIA, S. C., April 16.—The new state bank and trust company of this city has opened its doors for business. The bank is in charge of Dr. W. H. Timmerman as president, Edward Ehrlich as vice president, and John Taylor as cashier.

MATRON AND MAID.

The Baroness de Rothschild has given during the past month 20,000 francs to Parisian hospitals.

Mrs. Smith, the daughter of President Harrison, is dictating for publication her recollections of Webster and other famous American statesmen.

Mrs. Russell, who is now 79 years old and who was a friend of Rachel's nearly half a century ago, is still vigorous. She has an address at the recent dramatic congress in Rome.

Lady Mox, who made a present to Lord Roberts of a battery of six guns which cost about \$30,000, is now sending out clothing, tobacco and other comforts to the British soldiers.

A young woman named Jessica Bromberg is a volunteer private in the famous Kimberley rifles and is one of the crack shots of the regiment. She has been a member for some time and two years ago marched with her regiment against a savage tribe that was making trouble.

Miss McCaul, a volunteer nurse in South Africa, gave up a large private hospital in England to work gratuitously for the sick and wounded soldiers of her country. She is the only purely civilian nurse at the front and was the first woman to enter Ladysmith after the siege.

Miss Annie C. Emery has been elected dean of Pembroke college, the woman's annex to Brown university. She is a graduate of Bryn Mawr and has more recently been assistant professor of classical philology at the University of Wisconsin.

Miss Pauline H. Lyon of Chicago is becoming conspicuous as a promoter of moneyed enterprises. Her latest project is to promote an athletic club in New York for both men and women. It is said that \$100,000 will go into this scheme. Miss Lyon is a cousin of John Burroughs, the famous naturalist and writer.

Miss Kitty Wilkins is known as the "horse queen" of Idaho and is said to be a goddess of the saddle, with muscles trained since childhood to outdoor life and sports. She rides astride in leather breeches and counts her horses by the thousands. She is a dead-end shot and is usually mounted in her appearance, wearing vests, collars and four-in-hands as well as topcoats.

The late Lady John Scott Spottiswood, the author of "Anne Laurie," was often called the "Sappho of the North Country." She was an ardent Conservative. She opposed the substitution of coal for heat and stoves for chafin on her Berkshire estate and made her coachman ride postilion, regarding a box driver as an odious innovation derogatory to the dignity of a Scottish gentleman.

JEWELRY JOTTINGS.

Ruby beautiful are two and three stone rings in pink pearls and diamonds. Oncheon setting of the ruby, sapphire and emerald is the latest departure in jewelry.

The jewellers are providing some exquisite diamond handles in silver, gold and platinum. Silver handles are most chic and as such is seen in a ball of dull gray with a few flour-de-lis dotted over it.

Silver is showing its superiority to superior by transforming the ordinary ring into a symbol of good luck. The ring's charm ring should dangle, and the little chain, 13 separate rings, all supposed to be hostages to good fortune and prosperity.

A large conception in chains for work, a long chain is the pleasing use of the chain. To a chain of the usual length, a few links, a tri-lobed pendant in a new and fashionable green gold, and in this is set the round locket carved from chrysoprase, and other appropriate stones.—Jewelry Circular Weekly.

THE ROYAL BOX.

The queen of Romania, "Carmen Sylva," has again shown her sympathy with England by writing a poem praising the attitude of Great Britain in this Africa.

There are compensations for being an absolute monarch. The Kaiser's play, "Der Esenbahn," though an utter failure in Berlin, is still performed at the Royal theater "by his highest command."

Queen Margherita of Italy, who takes a keen interest in all subjects connected with education, was recently presented with a handsome couch cover by the pupils of the College of Anagni, a school for the daughters of elementary schoolmasters.

Queen Natalie of Serbia has canceled her will drawn in favor of her son, King Alexander, through disgust at his acquiescence in the virtual dictatorship of his father, Milan, and has drawn a new one, leaving her estate to the poor of Serbia and France.

Russia will be the first European country visited by the Shah of Persia next summer. He will proceed by way of Tiflis in the Caucasus to Moscow and St. Petersburg. About the middle of June he will go to Berlin and thence to Paris and England. His return will be by way of Paris, Vienna, Constantinople and Batum. His tour will last six months.

She Didn't Pay.

Not all car conductors are merely hardened ringers in of fares. A poor woman got on a Twenty-third street cross-town car at Fourth avenue, and as it was well under way and she was about to hand her fare to the conductor she asked him if he transferred to Sixth avenue. On being told no, she drew back her 5 cents and asked to be let off.

"I've a long ways to go on Sixth avenue," she said, "and I'd better walk to there and then ride."

The car then had reached Madison avenue. "Wait till we get across the street," answered the conductor. She waited, and instead of stopping there he let the car go on, past the transfer station and across Broadway to Sixth avenue. There he pulled the bell and looked at her.

"Thank you," she said gratefully. He had carried her within a block of where she wanted to go and had taken no fare.—New York Telegram.

State May Appeal.

He thinks it necessary to have that tribunal decide whether or not Neal was responsible for the collection of convict hire money, as that question enters largely into the Carolina bank suits.

Deafness Cannot be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
